

TERRA TRAX

TEAMBUILDING AND ADVENTURE SPECIALISTS

Present: Red Rock Wonder

The Red Rock Wonder is an absolutely unique and incredible experience. Many have commented that it was the most memorable event of their stay in Sedona. This program is sure to lift the spirits of participants while creating a unifying experience. We have provided this program the hundreds of first timers of all ages, abilities, and physical conditioning.

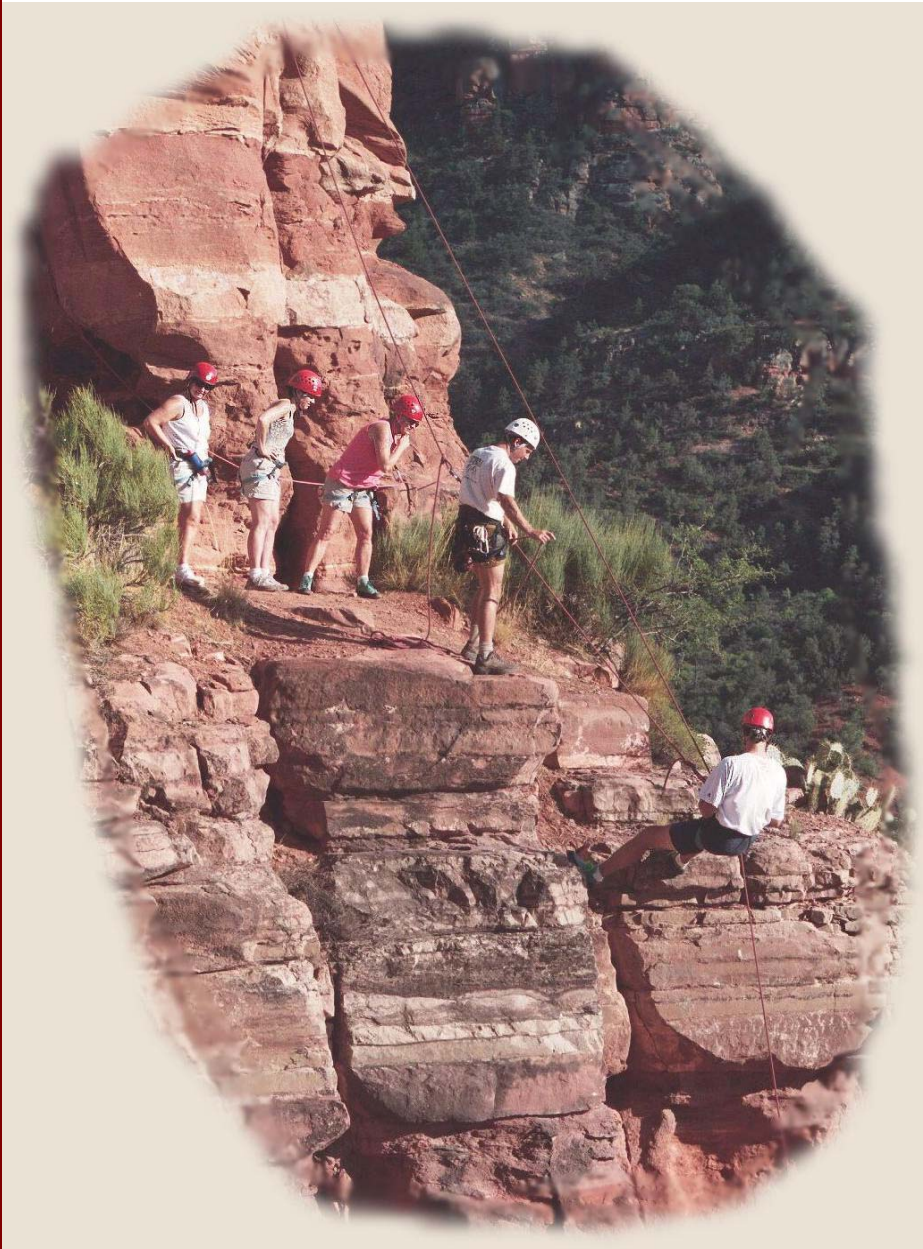

This event has been highly successful when utilized as a dynamic teambuilding program. It can be operated as a half or full day. We can custom design the program content to best accommodate your companies goals and objectives.

A short drive from the Sedona Hilton Resort brings us to a private setting where we discuss goals of the day. While on the fifteen minute hike, we stop to learn about the local plant and wildlife that make Sedona unique. The end of our hike takes us to our dramatic 'Island in the Sky' with grand vistas. This is where the climbing class begins. Lots of great opportunities for to sit, enjoy the views, watch others and take photos.

We outfit everyone with state of the art harnesses and helmets. We then begin with a surprising easy, yet exciting traverse. We then move into beginning climbs or rappels at a rate that is comfortable for each participant. This program is 'challenge by choice' and we help others discover an appropriate personal challenge. We do have more challenging climbs for those who want to push their limits. For the full day program we can bring lunch, add geology talks, provide in-depth debriefing and even finish with a Western bar-be-que dinner at the river!
